SUMMARY

Digital Strategy Master's student with experience in project management, product-related initiatives, and digital environments across academic and professional settings. Skilled in structured analysis, data-driven thinking, and cross-functional collaboration. Comfortable working with digital tools and performance indicators, with a strong ability to adapt in complex and evolving contexts. Driven by understanding how organizations scale, coordinate and perform in complex international environments.

WORK EXPERIENCE

Global Launch Leader Support - Schneider Electric Sept 2024 - Present

- Contributing to the global launch of the Modicon Edge I/O NTS hero offer across multiple Business Units within an international industrial environment.
- Driving cross-functional alignment through international workshops, content localization, and multi-country coordination.
- Overseeing product lifecycle execution from early releases to commercialization milestones.
- Ensuring strategic alignment between technical development and go-to-market requirements across product iterations.
